

# ENVIRONMENTAL GOOD HOUSEKEEPING REMINDER

Red Wing's federal Stormwater Pollution Prevention Plan requires good housekeeping practices, which include keeping grass and leaves off the street. Most stormwater runoff goes straight into the Mississippi, so adding yard wastes from streets, sidewalks, and driveways is water pollution. According to Red Wing City Code Chapter 7 Sec. 7.07 Subd. 3, it is a misdemeanor to leave yard and boulevard refuse on city streets or sidewalks where it can be washed into the river.

**Please help keep the Mississippi River and Lake Pepin cleaner by eliminating street debris near your home.**

Grass clippings can be swept or discharged back onto your yard where they can decay and actually fertilize your lawn. Grass and organic yard waste can also be composted for free at the City's Integrated Solid Waste Management Campus, located at 1873 Bench Street (M – F: 9am – 5pm, Saturday: 7am – 1pm).
