

In the creation of the Custom TMDL Applications, some cells got locked that weren't supposed to. If you run into a cell that you believe should be writable, please follow the directions below. (Specifically the **Notes** column on the 'Reductions for WLAs met' tab and the **Target year WLA will be achieved** column on the 'Compliance Schedule' tab.

Click on the Home tab:

Then click on "Unprotect sheet" in the Format cells section:
